WOOD LINE
FURNITURE PLYWOOD

WOOD LINE FURNITURE PLYWOOD

WOOD LINE Furniture Plywood is a product with Vietnam wood core (acacia, eucalyptus, styrax, rubberwood...) and wood raw veneer surface for interiors.

(1) Natural wood veneer (face veneer)

- High durability, and good water resistance
- Fancy natural wood grain is visible
- Less deformation, long-lasting stability

(2) Base plywood (core veneer)

- Vietnam soft/hard wood from legally source
- Consistent and stable in dimension
- Strong and nail-holding

Applications

Door surface

Kitchen cabinet

Vanity cabinet

Wardrobe

Other furnitures

Core veneer materials

Plywood manufactured at WOOD LINE is supplied by legally sourced plantation wood (acacia, eucalyptus, rubberwood and styrax)

Standard size

2,440 x 1,220 mm (other size can be cut as request) with tolerance: ± 0.8 mm

Squareness tolerance: ≤ 2.4 mm

Edge straightness tolerance: ≤ 1.2 mm

Grading options

- A Grade Face: Completely clean face, fully sanded with some minor colour variation, making it ideal for painting and finishing
- A/B Grade Face: Generally clean face (some patches in one side) but with minor splits/cracks repaired & sanded
- B/B and B/C Grade Face: A veneer face that can be repaired, primed, stained, lacquered or painted to suit the end application, suitable for using in rear side or non-visible surface

Standard thickness

5mm, 6mm, 9mm, 12mm, 15mm, 18mm

Thickness tolerance: Follow ANSI/HVPA-HP-1-2016
